## ADULT VOCATIONAL

(Continued from Page One)  
ating, but this class graduated 100 per cent," he said.  
In telling of his activities Mr. Rider praised the value of the knowledge he has gained. "It is one of the fastest growing professions. We can now weld steel, stainless steel, brass, bronze, copper, brass, and aluminum, each to its own kind, or each to the other thru the use of what have recently been developed."

"The knowledge of welding is needed in almost every shop nowadays, because of its universal acceptance in the metal industries, and that is particularly true in an area like the Glades not only for the work saved in repair, but when that time is saved. As for instance, where a group of laborers are dependent on the operation of a machine for their own activity."

Mr. Rider attributed to the invention of the coated rod the increased productivity of the welding and the production of special alloys in rod form to the more recent practice of welding different materials to each other.

Mr. Rider made an appeal to Rotarians and all others to give this vocational training a boost whenever you have the opportunity.

"Any man is much better off if he has two trades instead of one, and makes him more secure in his job, for most likely there will come many occasions when ability to take his rights in with his work."

## NEWS OF GOLADES BOYS

(Continued from Page 1)  
at the door. Sunday morning lunch is served anywhere from 8:30 to 12:00. Oh, yes, the stocks are good, they taste like they might come from Fritz Stein's Ranch.

Pearl Harbor, T. H. (FHTNG) James E. Norris, a 1941 graduate of first class, U.S.N., husband of the former Miss Mylene Sweet, of Belle Glade, recently returned here aboard the destroyer escort USS Renshaw from a six month tour of duty in the Far East.

During the cruise the Renshaw rescued four survivors from a four-engine Martin P-4 bomber that crashed at night in the raging Sea of Japan.

She escorted the battleship USS New Jersey and the heavy cruiser USS Bremerton on bombardment missions with the Nationalist Chinese Navy.

Sheave was enjoyed by the men in Japan, Okinawa, Formosa and Hong Kong.

Scheduled to participate in a two-month training cruise aboard a ship of the U. S. Navy's 1953 Midshipman Practice Squadron is Midshipman third class John S. Parker, SNB, son of Donald D. Parker of Belle Glade.

ROAD TRAVELING  
(Continued from Page 1)  
found he had suffered seven fractured ribs and multiple cuts and bruises.

Bryan caught a ride to South Bay with a passing motorist and reported the accident. He then started to return to the scene of the accident with another motorist, just opposite the W. C. McCall house, who was on patrol duty in this area and had investigated the accident and, according to Little League rules

and in the best interests of the boys, are indebted to R. Y. Creech, Jr., who has done a fine job as Commissioner.

In addition we are grateful to the following for their cooperation, time and money donated. The City of Belle Glade, Mayor Collins and Com. Carlton. Prof. Hobson and the School for the Blind. The Lions, Le-

agues, Elks and Rotary for their initial interest and donation which gave Little League the first big push. Wedgworth Farms made numerous contributions in men, money and materials and we thank George for all the boys.

We are indebted to Sam Knight for numerous donations, for it was he and Herman Close who first came up with the idea of a recreation program for our boys 9 thru 12.

The Belle Glade Machine Works for helping erect the backstop.

Rewinding and Belle Glade Herald for score board and the publicity given the Little League. The men who have spent many hours assisting the problems in promoting Little League and elected by the general membership are your board of Directors: President, Paige Choate; Vice President, Bob Creech, Jr.; Secretary, H. V. Drabes; Treasurer, Lou McDonald; Directors, Bruce Williams, J. N. Norris; Bill McClatchey; Rev. Robert Ford; Frank Willis; and George Wedgworth.

## SCHOOL OF LOGISTICS REALLY IN EARNINGS

SAYS EMMETT ROBERTS  
Lieutenant Emmett Roberts, USA reserves has just returned from Leavenworth where he attended a ten-day school on the staff of the Army Logistics.

"We attended classes with Chinese, Japanese and many other of our United Nations' representatives, and the times were filled with classes and reports," said Lt. Roberts. He reports that classes ran until ten o'clock at night. It appears from this information that certain branch of the Army really are taking training seriously.

## RECREATION PROGRAM STARTS WITH 148 OFF TO GOOD START

The summer recreation program started off with a bang Monday morning when 148 children registered in the first day and 43 more the second day, which makes 159 and more are registering every day.

Among the many activities in which the children may participate, swimming is the most popular. Tuesday afternoon 115 children were transported to the Pahokee pool. N. S. Starling and Kilgore Seed Co. furnishing trucks for the trip. Mrs. G. R. Townsend furnished her car to carry several children.

Supplying trucks for today are Walter Schlechter and Agricultural Insecticide Co. Organizations or individuals who are willing to furnish trucks Tuesday and Friday afternoons are asked to call 3988 or 3149 or contact director.

Activities are planned in advance so that children of same age and interests will report for their chosen activity at the proper time. Schedules are posted on the park bulletin board.

One special event is being planned for each week. Wednesday, July 1, at 2 p.m. a pet show will be staged. Children are to bring pets either on the leash or in a cage for display. Twenty pets have been registered so far and everything is included from snails to possums. Classifications for judging the prettiest, cutest, most unusual, best behaved, largest and smallest.

Special event for the week following will be a square dance to be held in the evening on tennis courts. Date will be announced later as well as other special events. Parents are invited to attend.

## KIDDER INSTALLS TWO WAY RADIO

A two way radio between office and car has been installed by Dr. C. W. Kidder, local veterinarian to be used in the operation of his veterinary practice.

The two way radio system will give Dr. Kidder instant and constant communication with his office. The equipment has a radius of 25 to 30 miles and operates on a set channel assigned to veterinarians.

Dr. Kidder says there are at least three reasons for the installation of this modern equipment. It will promote better service, give quicker contact, and enable him to give direct consultation at all times whether in his office or on a call in the country.

## D. C. NELMS JOINS FOREST RANGERS

D. C. Nelms, son of Dr. and Mrs. Omar Nelms, student at the Florida University, Tallahassee, is one of four boys at the University who have joined the Forest Rangers for the summer at B. R. C. Camp 255, Clarke, Fla.

D. C. writes his folks that the scenery and forests are wonderful. The boys do various kinds of work pertaining to forestry such as planting trees, treating trees with insecticides, trimming and topping and also a lookout on forest fires.

He plans to return to Florida State in the fall.

You can't live on love nowadays without refinancing.

## WESTERN AUTO TO GIVE FREE ORCHIDS

Western Auto Store is open for business at their new location 68-72 S. W. Ave. A, just opposite the Fire Station. The new home is one of the oldest pioneer block buildings which has been completely renovated inside and boasts a new modern front. Outfitted with all new fixtures, Jack Royals, the proprietor, who has served the area for over 20 years, is very proud of his appearance.

With a floor space twice the size of the former store, a wider selection of stock will be offered our customers," he says.

A G. English, Miami, supervisor for Southern Florida Stores, spent four days here assisting in organizing the new store. Two men were supplied from Jacksonville to help install merchandise. Mr. Royal, who has served the Glades for the past six years will continue to offer the best merchandise and values available, he states.

A large shipment of fresh Hawaiian Vanda Orchids is due to arrive here by plane today. They are to be given away at Jack Royal's new Western Auto Store across from Fire Station on Saturday, June 27.

Jack Royals, proprietor, told the Belle Glade Herald that 500 orchids were picked only hours ago in their natural habitat in Hawaii processed and packed at Honolulu's International Airport, and are now on their way to Belle Glade via air express. The Hawaiian Islands are over 2,000 miles from the United States mainland.

## VFW HELPS FFA BOYS

Commander Mapp of the local VFW Camp in reporting results of a small fund which the organization has used over three years to lend to FFA boys for the purpose of cattle projects states "We would like very much to have the fund larger, but it has helped several boys over the past three years, and in that manner has contributed to the work and objects of our agricultural students."

The first two years the fund was loaned the boys made considerably over \$100 each year, but the past year netted to the boys the sum of \$38.20, which more than many of the boys' fathers netted on much larger investments.

What present the fund is loaned to a boy who added to the loan and purchased three feeders which will be sold by the school commences next fall. While the fund is only \$75 at present, its use so far has helped

## from Hawaii to two and a half inches long. Originally developed in Singapore where they were used as garden borders by Malayans, these orchids have been raised and developed in Hawaii for over one hundred years, Mr. Royals explained.

**KNOW YOUR C**  
(Continued from Page 1)  
since this series of articles is published by the Herald with the idea of increasing both interest and membership in the Chamber we want to remind you that you can join for ten dollars and that you will gladly take your application.  
Way back yonder when the Van Horn family started farming here there were no tractors and no roads. For some of us Johnny-Gone-Lettes, it's hard to imagine, but they made their crops the hard way, beans, peppers, eggplant and a few others, with peanuts in the summer. They shipped the stuff to Ft. Lauderdale by boat, down the new River canal, in fact, most of young Van Horn's early life in the Glades revolves around boats one way or another. He went to the grade school at Okechanta in a boat—crossed seven miles each way. The

mail, along with everything else, was delivered by boat. From Ft. Lauderdale, an important trip to Ft. Lauderdale one day, missed the mailboat and he and Ivan rowed the 61 miles in 14 hours. Even if it was down-bill and shady all the way, that should constitute a record of some kind. Coming back they latched on to the mailboat and caught up on their sleep. Ivan says life was rugged but it had its compensations.  
There was a good hotel on Ritta Island, twenty-five or thirty rooms. It was an overnight stop for passengers. Tamiami Trail passengers between West Palm Beach and Ft. Myers traveled by bus to the vicinity of Belle Glade, took a boat across the lake and finished the trip on another bus. Ivan used to operate one of the boats. There was another good hotel at Lake Harbor. The 28 room finished the one on Ritta Island. The one at Lake Harbor burned about 1931.

In 1929 the highway between South Bay and Clewiston was under construction and Ivan was working on a dredging barge there. When the storm came on the way they took another barge, which was used as a floating bunkhouse, to South Bay and tied it up below the locks. It was Ivan's idea to install the pump in case the barge should leak. His fellows workers told him there was no use bothering with it.  
"In the first place you can't start the engine half the time," they told him. "In the second place you can't keep it running if you do start it. The rain will wet the magnets and it'll shut out. And in the third place the barge doesn't leak so you won't need the pump in the first place."  
Fortunately young Van Horn was a stubborn fellow so he installed the pump and lashed it down. The boys turned out to be wrong on all three counts. The barge had eighteen inches of water in it before midnight and the hundred or so people, mostly from South Bay, who had taken refuge in it, couldn't do much bailing with the few dip-poms and tuckets they had aboard. Ivan did start the pump, and between the rain and an oilcan he kept the water out of the mag. The engine ran, the water was pumped out, and the barge, with its cargo of men, livestock, rode out the storm.

Ivan recalls when there were no boats on the canal. "They had to run backwards one way," he says. "They were too long to turn around." There were also boats with immense, one-cylinder gas engines. I remember one that was so hard to start that its captain used to run it inside all night. I can still hear it "boom-boom-boom." Now and then it would miss a couple of booms and when it fired again they could hear it in Miami.

But roads came eventually and Ivan made his first trip in a car to West Palm Beach about 1929. It was in a Model T Ford and took eight hours. They traveled in low gear for the first twenty miles. "Roads are better now," he says.  
In his courtship day Ivan's pride was a 26-foot boat with a two-cylinder gas engine. One night he polished it up and escorted Miss Gertrude Mabry, of Ritta Island, to a dance at Okechanta. Coming back they had to make a short stop at a half from shore, the engine broke a crankshaft. "How did you get Miss Mabry home?" we asked.  
"Well, the water was about four feet deep or little better. I tied one end of a rope to the front of the boat and the other end around me, and waded ashore towing the boat. I think we made it to my neighbor's place along about sun-up. Had breakfast and borrowed his boat for the rest of the trip."

Well, if rowing a boat to Ft. Lauderdale isn't a record then dragging one halfway across the lake should be. Incidentally Miss Mabry must have been impressed by the feat also, for she became Mrs. Van Horn a year or so later.  
They now live at 190 S.W. Avenue E in Belle Glade and Mr. Van Horn, in addition to being a director of the Belle Glade Chamber of Commerce, is a member of the Masons, Lions, Civil Service Bureau, Community Methodist Church. Ivan gave us his reminiscences with some reservations as to the accuracy of exact dates and details.  
"I'm not absolutely sure about all these times and events," he says. "You might check with some of the old timers for the Lawless' Will and Arthur Wells."

His final statement, however, is one which we don't think anyone will challenge—"This country has changed some in the past forty years."  
"A can opener is a device which permits a housewife to move around in the best circles,"—John Cameron Swayze.

## YOU NEED YOUR CHURCH YOUR CHURCH NEEDS YOU . . .

### EPISCOPAL BISHOP TO VISIT GLADES

The Rt. Rev. Henry I. Lott, D. D., bishop of South Florida will spend this week end in this area visiting the churches at Pahokee and Clewiston. On Saturday night at 6 o'clock there will be a covered dish supper honoring the bishop at the home of O. R. Bleech, Broom Point Road in Pahokee, which time members and friends of the Church of the Holy Nativity will be present. A guest of honor will be the Rev. Marion Wendell Hamlin, who succeeds Father John Clarence Petrie in July as vicar of the Pahokee church.

On Sunday at 9 a. m. the bishop will celebrate Mass and administer the Sacrament of Confirmation at St. Martin's church, Clewiston, and the bell given to St. Martin's by the Atlantic Coast Line Railroad.

The presentation will be made by E. B. Lawrence, Florida (weight traffic manager for the railroad). The acceptance will be by Guyman D. Ricketts, senior warden of the church.

After the ceremonies, there will be a dinner at the Clewiston Inn honoring the bishop, Mr. Lawrence, and the Confirmation class. Members and friends of the new St. John's mission, Belle Glade, have been organized by return postcard asking reservations for the bishop's dinner.

Confirmation will not be administered in Bell Glade until sometime in the late fall at which time Bishop Lott has promised to visit the mission and hold the first Confirmation service in the history of Belle Glade. Father John Clarence Petrie remains as vicar of Clewiston and Belle Glade and will go to Pahokee once a month to celebrate the Holy Communion until Mr. Hamlin is ordained to the priesthood.

Meantime during the summer the Belle Glade Episcopalian Church will continue to meet in one another's homes at 6 p. m. to read Evening and hear talk by the bishop or one of the group. Next Sunday the meeting will be at the home of Mr. and Mrs. G. B. Averill, Hooker's apartments at Clearview.

Father Petrie will talk about "The Relationship Between Psychoanalysis and the Sacrament of Confession."

### MORMON MEMBERSHIP

World membership of the Church of Latter-day Saints (Mormon) in 1952 was 1,147,157, according to the American Peoples Encyclopedia 1953 Yearbook. During 1952, the Mormon church found it necessary to

terially to reduce the number of its missionaries in foreign fields. It is reported in the Yearbook that this reduction was necessary, church officials report, because of the great number of young Mormons inducted into missionary service who otherwise would have been called to fill missions in the church.

Local minister helps welcome former Florida's back from Bureau of Education, left, pastor of the Belle Glade Episcopalian Church, center, and a group of people, right, at the home of Mr. and Mrs. G. B. Averill, Hooker's apartments at Clearview.

### PASTOR'S WIFE IS YOUTH DELEGATE

Thirty-six delegates from the State of Florida attended the General Conference of Seventh-day Adventists Pan-American Youth Congress which began their opening session June 16 and closed June 29.

Mrs. F. D. Buckmiller, wife of pastor of the local Adventist church, attended the five-day session as delegate from Florida. She was accompanied by

Mr. Buckmiller and daughter, and three delegates from Florida. Adventist youths representing all the 48 states and every country in the Western Hemisphere posed the Civic Auditorium in the opening session of a five-day Pan-American youth congress.

The young people heard special messages from President Eisenhower, Vice President Richard Nixon, California Governor. (Continued on Page 8)

### Outline for the INTERNATIONAL SUNDAY LESSON, JUNE 28, 1953

Lesson Topic — PAUL'S JOY IN CHRIST  
Scripture Lesson — Philippians

Introduction:  
This little letter to the Philippians was written while Paul was in prison. The Philippians learned of Paul's plight and sent him an offering. The bearer of the gift was Epaphroditus, who stayed for awhile to help Paul. He told Paul of the dissonance in the church at Philippi, so Paul sends back this letter thanking them for their gift and attempting to heal the division in the church.

I. Joy of the spread of the Gospel—Philippians 1:12-19.  
A. Through Paul's testimony vs. 12-13.  
Through the preaching of others vs. 14-19.  
II. His joy that Christ is magnified in his body — Philippians 1:20.

III. Paul's joy even in the facing of death—Philippians 1:21-24.  
IV. The joy of the Philippians—Philippians 1:25-27a.

Paul has expressed his triumphant joy as a Christian. He knows victory over that which life brings to him. He has a faith that can conquer death. He is concerned that his converts shall share his joy and that their manner of life from day to day shall be an expression of their convictions as Christians.

REV. NICOLA DE STEFANO

### THIS WEEK'S SERMONETTE

What The Gospel Was To Paul  
By Rev. Nicola D. Stefano, D.D.

There was to Paul in the Gospel a glory of moral beauty.

There are certain qualities or traits of character which fascinate and win. They are often qualities very different from our own. I have no doubt that Jesus of Nazareth had thrown some of His wonderful gifts on Paul; to be a life loyal to truth and duty; to live in unbroken communion with God; to speak words of tenderness; to carry out and reproduce in His heart in such a fashion, and wear Himself out in teaching and helping men.

There was something infinitely touching and winsome in it. Such was the change when the life of Jesus which had been covered up, to Paul's eyes among delusion and deception, suddenly smitten on by the light from Heaven.

And now it always gleamed before him, that suggest, sorrow crowned figure of the Man who had taught him to love and to endure and to achieve because He Himself had loved utterly, him merely from burden, and achieved an infinite work. This image was not shining on him merely from burden, it was shining in his heart. It was embowered there.

To feel the wonder and glory of the highest kind of goodness, there are one or two things

necessary. We must see the falseness or narrowness of a great many things which have a certain external fascination, so that we are driven back on character and truth. It is only when we are in this frame of mind that the fascination of christian purity and love grows stronger, and we grow more and more ready to be a life loyal to truth and duty; to live in unbroken communion with God; to speak words of tenderness; to carry out and reproduce in His heart in such a fashion, and wear Himself out in teaching and helping men.

We know that Paul, at the first stage of his career was trying to test the fruits of Christ's cause, when Christ Himself suddenly stood in his path. He felt smitten him down in wrath it would have been fitting. Had Paul never risen from the ground in the Damascus road where he fell blinded, who would have said that the stroke was not just?

But Christ came to meet His persecutor with the most extraordinary pity. He came to say that the salvation which Paul was set to attain, through life long toil and persecuting fury, could be had, now as a gift from the hand of the very one whose cause and person he was persecuting. Of course Paul was dumfounded, everyone is when he realizes the Divine Mercy.

the time, but the Senate passed a bill last week with far reaching implications for Florida. It is the so-called "rain-making" bill which I jointly sponsored with several other Senators.

Extensive hearings have been held on this subject during the past several years. Non-scientific and pseudoscientific rainmakers have been practicing their art for many years with many fantastic and far-fetched devices and theories.

The general public has, justifiably, regarded these efforts with skepticism. But in the past seven years genuinely scientific experiments have been made with "highly suggestive results." Dr. Yannev Bush, President of Carnegie Institution who was one of the principal developers of the Atomic Bomb, and Dr. Vincent J. Schaefer, of the General Electric Research Laboratory, have testified that rain can be induced.

Dr. Bush testified: "We are on the threshold of an exceedingly important matter, for man-

has begun for the first time to affect the weather in which he lives, and no man can tell where such a move will finally end."

All through the acid wet day, professional rainmakers are inducing rain in many instances through a process of "seeding clouds." This has already developed into quite a business. Why? Because it is vastly involved in the measure to create a committee "to study and evaluate experiments in weather modification."

Well, if we are able to obtain rain when we need it, and divert rain to the ocean area when we don't want it, what a paradise we would have. In addition, studies have indicated that scientists may soon be able to disperse, or divert, hurricanes, thus relieving Florida of this annual threat. Probably the most important by-product of this new development is the ability to convert salt water into fresh water. Imagine what a relief this would be to Key West (which pipes all its fresh water in from nearly 150 miles away).

Chances are, C. C. and coastal areas where the problem of obtaining fresh water is growing ever more acute.

The imagination is staggered by the possibilities when and if man discovers how to modify the weather. Mark Twain's most famous quotation will pass into limbo.

**"TOO LATE TO CLASSIFY"**

My friend Dallas L. Hostetter, executive secretary of the Florida State Retailers Association, comes up with a bright idea that I'm happy to endorse and pass on.

You have heard the commonly used expression, "I'll take a rain check."

Well, Dallas suggests that here in Florida we ought to change it to "I'll TAKE A SUNSHINE CHECK." He says: "You have heard the expression 'I'll take a rain check' thousands of times. It may be an acceptable expression everywhere else, even in California, but it certainly is not appropriate here in Florida, and there should be a suitable fine or forfeit attached to its use in the Sunshine State."

Let's make it, "I'll TAKE A SUNSHINE CHECK" as the new Florida way of politely postponing a pleasure or a treat proffered by a friend. Let's make it a habit, and when we travel let's spread Florida sunshine wherever we go. It is a novel and cheerful bit of advertising, too.

"One of Florida's many fine service clubs might well make a project out of this suggestion and inaugurate a statewide campaign to popularize the new Florida- coined expression, 'I'll Take a Sunshine Check' to replace the old and shopworn, 'I'll take a rain check'."

The Florida State Advertising Commission might find a way to promote the idea in its literature or advertising. The thing has real possibilities. We might even form a Florida Sunshine Club to dramatize the idea.

"Such a club would have no officers, no dues, no meetings and no by-laws, save one. To become a member, a person need only to adopt the 'I'll TAKE A SUNSHINE CHECK' habit and use of the old rain check gas would be immediate cause for suspension of membership, plus a stipulated penalty."

"If the suggestion doesn't appeal to you right now," says Dallas, "TAKE A SUNSHINE CHECK on it for later consideration."

Now that Florida is about to have a bob-tailed turnpike, it is interesting to note that the Ohio Supreme Court recently upheld the Ohio State Turnpike Commission program to accept only bids that specify concrete for the state's proposed 341 miles of four-lane turnpike, from the western tip of Pennsylvania to the Indiana border which, when added to the present Pennsylvania turnpike, will provide a continuous four-lane concrete road for 568 miles from near Philadelphia to Indiana.

The State of Indiana is planning to construct a connecting turnpike from the Ohio line to Gary, a distance of another 190 miles, where it will connect with the Tri-State and Calumet Expressways now completed in Illinois enabling motorists to travel by turnpike on a four-lane concrete highway from Philadelphia to Chicago.

A north-south east coast turnpike from Boston or New York to Florida would be worth millions of dollars to this state, and if Florida would take the lead by constructing her end from the Georgia line to Miami, other states would come along as has Ohio, Indiana and Illinois in providing the east-west turnpike. Permanence and low upkeep cost should make the use of concrete imperative on such highways and the Ohio Court shows sound judgment in backing up the Ohio Road Board.

## KILLINGER OFFERS SUGGESTIONS FOR MAKING GOOD HAY

Proper use of a slatted-floor barn equipped with a heated air system offers the Florida farmer a better chance for success in making hay than any other make hay in the field, according to Dr. Gordon Killinger of the University of Florida Agricultural Experiment Station.

"Because of our frequent rains in the summer," the agronomist explains, "it is difficult to make high quality hay in the field. Considerable quantities of hay are made in the field in Florida every year, but much of it is of comparatively poor quality. The slatted-floor barn and artificially heated air for drying the hay have thus far high quality hay in our state."

On farms where much hay is produced in the summer, it is advisable to use mechanical equipment such as automatic pick-up balers, bale loaders, side delivery racks hay loaders and belt, and the special type drying barn with artificially heated air. "Grass or legume hay can be produced more cheaply in Florida with such equipment on a large farm than it can be bought from other states," the Experiment Station worker says.

Pangola, Coastal Bermuda, Dallas, Para, and Bahia grasses and hairy indigo, Alyce clover, and other legumes can be used for making good hay if they are cut at the right stage of maturity and handled properly. Dr. Killinger offers these suggestions for making hay in a drying barn:

Cut grass in the morning. If rain does not threaten, leave it in the field until the second day. Bale it loosely or pick it up without baling and place it in the heating barn.

Stack baled hay closely from two to four bales deep and with all cracks or holes stopped. Distribute loose hay evenly over the dryer floor. Do not have tightly packed and loosely packed hay in the barn at the same time.

Have the heated air in the barn 20 to 30 degrees hotter than outside air. Heat may be increased for quick drying, but temperatures above 150 degrees may brown hay as it approaches dryness. Hay may be stored after its moisture content has been reduced to 20 percent.

Hay dried on clear days may be cured satisfactorily by forcing heated air through it at night and normal unheated air through it during the day. This method will prolong the drying process, but will reduce the cost.

After cutting a crop of hay from a pasture, apply fertilizer to the stubble (which should be at least three inches in height, as closer cutting will delay comeback of grass). As much nitrogen, phosphorus, and potash as are removed from the field

## FLA'S MILK PRODUCTION EQUALS ITS CONSUMPTION

Florida's 173,000 dairy cows produced 190 million gallons of milk last year.

This 1952 volume of milk produced in Florida was 17 percent above the 1951 gallonage, the Florida-State Chamber of Commerce reported recently in recognition of June, Dairy Month.

Florida now produces very nearly all the milk consumed in the State. Last year, 1,090,880 gallons of milk were imported from other areas and about half this amount was exported from Florida to adjacent states.

This week's business review of the State Chamber's research and industrial division shows a total importation of 2,005,452 gallons of forty-percent-cream into Florida last year, more by 12 percent than in 1951. Cottage cheese importations increased 32 percent and amounted to 3,698,617 pounds. Small amounts

of cottage cheese and of creamery butter are produced in Florida.

Florida's leading manufactured dairy product is ice cream. Production in 1952 of ice cream and related frozen desserts reached 12,500,000 gallons made in the 400 wholesale and retail plants in the State. This 1952 total was up 2 percent from the 1951 production.

The dairy industry in Florida is marked by unusual problems which stem principally from variations in seasonal demands and from a need for increased production of feed crops. However, significant advances have been made in recent years through the cooperation of the industry and governmental agencies.

## RAINBOW GIRLS AWARDED PLAQUE

Belle Glade Order of Rainbow was awarded a Masonic Home Plaque in recognition of doing the most work for the Masonic Home this year.

The plaque was presented to Joan Rabin, worthy advisor, by Arlo Bean of Tampa, at the banquet held at the Hillsboro hotel during the seventh Assembly meeting of Rainbow Girls in Tampa, June 19-21.

Tampa won the plaque last year the Belle Glade girls winning the year before. The plaque may be kept permanently if won three consecutive years.

Gloria Crosby, Beverly Olsen and Joan Rabin were delegates to the Assembly.

Rainbow girls will have their meeting Monday night at which time plans will be made for the summer.

## It's Family Fun Time in FORT MYERS and ITS ISLAND BEACHES

Yes, everything's in order for the first summer yet! Beaches all set with a new collection of shells, water food just fine for swimming (and filled with fish for fishermen)... Tropic, red and snook for anglers... Tarpans and wheelbarrows... and the COOL Gulf Breeze is turned on. Everything is in place for order for Florida Family Fun!

THIRTY TOO! You'll like the LOW summer rates. Our first summer accommodations offer what you want, where you want.

For information on Florida Family Fun write: J. M. DYER, Chamber of Commerce Ft. Myers, Florida.

**BIG FISH CONTEST UNTIL AUG 15**

**FREEZE 'EM AND SAVE!**

**LESS WORK**—For everyday meals, or when unexpected guests come—take a trip to the freezer instead of the store. Cook entire meals ahead and freeze them for "off" days. "Main produce" cakes, pastries, desserts and soups dishes.

**AT LOWER COST**—Buy "big" when crops are in—quality highest... prices lowest. Cash in on wholesale prices. Save on lower prices of out-of-season delicacies. Save on special bargains! Offers at the stores. Save with cheap Sunshine Service!

**FLORIDA POWER & LIGHT COMPANY**

**POWER! PERFORMANCE! AND LOW PRICE!**

Drive it and Learn Why Dollar for Dollar You Can't Beat a Pontiac

Once you're behind the wheel of a new Pontiac, it's hard to believe it's priced so low.

You thrill to outstanding performance that lets you slip through city traffic or cruise the open road with power to spare.

You relax in roomy, luxurious interiors, and enjoy the satisfaction of driving the most distinctive beauty on the road.

And because it's big and rugged, Pontiac gives you the feeling of road-hugging safety, yet maneuvers so easily that driving is almost effortless.

In fact, there's nothing to suggest that it's priced just a few dollars above the lowest.

Come in soon and prove to yourself that dollar for dollar you can't beat a Pontiac.

# SOUTH BAY BEAN CITY LAKE HARBOR

Mr. and Mrs. Coes Peet of Newfield, N. J. were the hostesses of the week in New Orleans on business.

Mr. and Mrs. Homer Frasure and children, Homer Jr., and Larry, have returned from Jacksonville after a visit with their parents, Mr. and Mrs. Fisher.

Mr. and Mrs. E. M. Williams and daughter, Joan, have returned from Tallahassee where they visited their daughter, Barbara.

Joanne, who is taking a summer band course at the Florida State College, her sister and brother-in-law, Mr. and Mrs. E. Green and family.

Mr. and Mrs. Wm. Myers, who built a home here during the winter, have returned to their home in Ohio for the summer, planning to return here in October.

Mr. and Mrs. W. W. Ferguson, Kathy and Billy, have returned home from a visit with her mother, Mrs. J. C. White in Macon, Ga. While there Mrs. Ferguson took treatments at Duke hospital.

O. H. Martin is on a two weeks vacation trip among relatives at Florida, Dettan and Montgomery, Ala.

Roy Hudson and daughter were down from Tennessee last week for a visit with his brother, Arnold Hudson and friends in West Palm Beach.

Mr. B. M. Bender, manager of the snack bar at Pioneer Grocers is off duty for his summer vacation during which she plans on visiting relatives in Michigan and Arkansas.

Mrs. Editha Eckman left Monday for a visit with her father, E. W. Silley in Union Town and Charleston, Pa.

Mrs. Jesse Barnes, Mrs. Betty DeVane and Elbert Hestie of Lake Harbor left last week to visit George DeVane, USN at Norfolk, Va. Mrs. DeVane will remain with her husband, Mrs. Barnes and her father are visiting.

## New CASE Field Forage Harvester

Here's a sturdy machine which provides a real short-cut in the making of corn or sorghum silage. In one power operation, the Case field forage harvester cuts the standing row crop, chops it into short, uniform lengths, and loads the chopped material into truck or wagon driven alongside or trailed behind. Also may be equipped with pick-up attachment for windrowed hay, green or dry. See us about it.

ing her grandfather, L. T. Archer in Leeds, Ala., an aunt at Fairfax, Ala., and her grandparents, Mr. and Mrs. Hester at Tifton, Ga.

Capt. L. O. "Jack" Batley of Washington, D. C., is visiting his mother, Mrs. Josephine Batley this week. His wife and children are visiting her parents in Plant City.

Lewis Kelsoe, Bobby Lee and Lemur Lovell left last week for Troy, Ohio, where they are taking a 16 weeks course in welding at a Trade School. Mrs. Kelsoe, meanwhile, is remaining with her parents, Mr. and Mrs. E. B. Bethea in Clewiston.

Mr. and Mrs. Mark Challancin, Mike, Jimmy and Vicki, left Monday for Hamilton, N. Y., where he is engaged in the summer market garden produce business. His trucks loaded with negro labor preceded the family.

David White, Danny Manga, Johnny Willis and Billy Bowen returned Saturday from Lake Placid where they have been attending 4-H Camp for a week.

Joe. H. Ushes purchased the Lonnie Warren cottage on Park Avenue and is moving his family to their new home.

Mr. and Mrs. H. O. Mitchell left this week for Hamilton, N. Y., where they will operate a seasonal store for harvest hands in the market garden area.

## HARDY'S BEST TO TOUR EUROPE

Mr. and Mrs. M. J. Hardy, accompanied by Edwin Best of Belle Glade, left Wednesday for Miami where they are en route on airlines for a 7-week tour of London. Best will visit his sisters in Nottingham, whom he has not seen in 43 years.

The Hardy's will be met in London by their son, Sgt. Ray N. Hardy and visit him and his wife at Oxford until July 1st. They will then leave on a contracted tour of France, Belgium, Germany, Switzerland and Italy ending with a three day stay in Paris.

## SERVICES HELD FOR CHARLES H. DENTON

Funeral services for Charles Herman Denton, 62, age 24, were conducted Tuesday at the Belle Glade Baptist Church, the Rev. W. Malcolm, pastor officiating.

Pall bearers were A. O. Walker, Jr., Larry Roy, Roger Cunningham, Ward Harrison, Rudolph McMillan and D. L. Shiver. Honorary pall bearers were Eddie Crosby, Jack Whitlock, B. Smith, Jr., and Jack Crommie.

Burial was made at Woodlawn Cemetery, West Palm Beach.

## LEGION AND AUXILIARY JOINT INSTALLATION SCHEDULED JUNE 25TH

The South Bay America Legion and Legion Auxiliary met at the Legion Hall Monday evening to plan for attendance at a joint installation of officers on June 25th at Pahokee.

Legion Post and Auxiliary Units officers from Clewiston, South Bay, Belle Glade, Pahokee and Canal Point will be inducted on parade at that time by the Ninth District Commander and their installation teams. Mrs. W. C. Allen of South Bay is Ninth District President and her team officers are all from the South Bay and Belle Glade Units.

## FIVE INJURED IN HIWAY COLLISION

Five persons were severely injured and two cars demolished in a highway accident, 1-1/2 miles east of Belle Glade on S.W. No. 80 about one o'clock Saturday afternoon, according to the report of Trooper J. P. Bertrand.

William Melchert, Elmwood Park, Ill., driving a Chevrolet sedan west was struck head-on by a Ford driven by Willie Alford Brown, negro, of Lake Harbor, who came across the center line to strike the Melchert car. Brown was traveling east.

Merchert suffered a fractured leg, multiple cuts and bruises. His wife, Mildred, age 43, suffered multiple contusions. Their daughter, Marcia, age 13, received cuts on her forehead.

Brown had multiple face lacerations and bruises and fractured ribs. His companion Ethel Lee Brown age 28 has fractured ribs and was badly scalded by the radiator water. Both cars were demolished, an estimated \$3,000 damage. All five were hospitalized in the Clewiston hospital. Brown was charged with driving on the wrong side of the road and causing an accident.

## HOURS CHANGED AT CITY HALL FOR NEXT TWO WEEKS

Office hours at South Bay City Hall will be changed next week during the two weeks vacation absence of City Clerk, Mrs. Mabel Barlow.

Jack Warren will be in the office to accept water account and garbage permit payments all day Monday, Tuesday and Wednesday mornings, Thursday and Friday afternoons and Saturdays until noon.

## PASTOR'S WIFE IS

Continued from page 5  
ernor Earl Warren and FBI Director J. Edgar Hoover.

In addition, they were commended by William H. Branson, president of the Seventh-day Adventists, for their "staunch stand for right principles in this time of grave peril."

In a letter read by Elaine W. Dunbar, Adventist world youth leader, President Eisenhower said in part: "My warm greetings go to all of you meeting in San Francisco for the Pan-American Youth Congress. It is splendid to know of your dedicated efforts to foster understanding and comradeship among the young people of the Western Hemisphere."

Vice President Nixon conveyed his "best wishes" for the success of the meeting.

Governor Warren told the delegates "it is an inspiring thing to see young people gathering from such great distances to work together in programs for the advancement of Christian principles."

FBI Director J. Edgar Hoover said "there can be no doubt that the advance of crime results from our failure to teach Christianity convincingly, and the one certain way to curb this menace is to bring about a return to religion as our guide for living."

Pastor Dunbar told the young people that "this gathering has been called to help us all organize in a better way to share our faith through practical demonstrations of Christianity."

The five-day program included clinics for marriage, military service and career problems faced by youth. The young people will be called on to support the principles of the Adventist "Ligion of Honor," which asks, "What would Christ do?" regarding the choice of entertainment and recreation.

Color and pageantry entered in the youth congress when the Latin-American delegations gave special programs depicting life in their homelands. Climaxing the "overseas" demonstrations was a panorama of missions. Saturday afternoon when hundreds of persons from many

## Food Sense—Not Nonsense

Worried about vitamins? Afraid of carbohydrates? Puzzled as to how to eat right and keep your family healthy? Don't you know that avoiding fats and sugars? In spite of the fact that an increasing knowledge of nutrition has been gained over the past few years, food crazes have been sweeping the country. The public is puzzled and bewildered. It is reassuring to know there is no substitute for a well-balanced diet, patterned on the basic seven food groups.

By an every day selection of foods from these groups you can be sure of providing all the nutrients your body needs for health and vigor. All of these are essential to your physical well-being. To have a well-balanced diet, with all the needed vitamins, minerals, proteins and carbohydrates, select foods from these following groups. (Servings are given as eating guides.)

Green and yellow vegetables, such as broccoli, green beans and carrots—only a large serving daily. These are rich in vitamin A, essential to good vision, and iron to build red blood cells.

Oranges, tomatoes, grapefruit and lemons—eat one daily. These are rich in vitamin C, essential to good vision, and iron to build red blood cells.

Milk and milk products, such as cheese and ice cream. One pint of milk for adults and more for children, daily. These are especially important for protein and calcium. They build strong bones and body tissues.

Meat, poultry, fish and eggs—eat a serving meat, fish, or poultry daily, at least 4 eggs per week. Six ounces of enriched or whole wheat bread, carrying essential minerals.

Bread, fruit and cereals. Six ounces of enriched or whole wheat bread, carrying essential minerals. Also include raw cabbage and salad greens. These furnish vitamin K, essential to good blood circulation.

Butter and fortified margarine—two or three tablespoons daily. These are high in vitamin A, essential to good vision, and are good "fuel" foods. The important point is to include foods from each of these groups every day. Your diet will be placed—your hunger satisfied—your food sense satisfied.

## Barbed Wire Reel

It's easy to make this reel for barbed wire from an old automobile tire and five 18-inch two by four. Just split the casing around the center so it is in two equal halves. Then, with the outside of the two halves towards the center, space the two by fours, and nail them to the casing through the concave sides, as shown. This reel, used by the farmer, will roll easily on the ground to wind, or unwind, barbed wire.

each boy graduate from high school up-to-date for the last six years.

(c) Making up a program of work to be carried out during the next school term.

(d) Making up reports requested by the State Officials of the State Department of Agricultural Education.

July 6th through 10th our Agricultural Teacher will be away attending the Agricultural Teachers Conference at Florida A. & M. College, Tallahassee, called by the State Agricultural Educational officials. The main purpose of this conference is to acquaint each Vocational Teacher in the State on approved methods of teaching boys in the field of Agriculture.

## "Come on Over and Enjoy YOUR Ocean"

## Plenty of HUSTLE from the instant you START

(Have you tried T.T. Dynaflow?)

The automobile pictured here is a 1953 Buick Special with Twin-Turbo Dynaflow.

You discover what that means when you take the wheel—when you try it for getaway—when you head it up tall hills—when you maneuver it in traffic.

The instant you want to move, you move.

You can go from standstill to a legal 30 mph quicker than quick. Fact is, this spectacular new TT Dynaflow gives you getaway, plus silence, plus smoothness, in a combination no other automotive transmission in the world can equal.

The instant you want emergency power, it's there—velvet forth from a brilliant Fireball 8 Engine with the highest horsepower and compression ratio ever to power a Buick Special.

The truth is, the instant you feel this big, broad, thrill-charged beauty in motion, you'll know it's a performance automobile—nimble and eager, responsive as quicksilver.

But exhilarating action is just part of the story here.

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM
